Cyber@UC
Sponsorship Packages

Fall 2023

Cyber@UC is a federally recognized non-profit student organization at the University of Cincinnati. Our goals are to educate university students, perform outreach programs for local high schools, and connect our members with great companies across the country and around the world!

BearcatCTF

BearcatCTF, our upcoming 24-hour Capture The Flag (CTF) cybersecurity competition, is set to take place this coming February! Cyber@UC is excited to host our first independently hosted CTF, bringing with us years of experience hosting around a dozen CTFs for other organizations such at the University of Cincinnati (UC) and student organizations at UC (e.g., IEEE and ACM).

We are planning for this event to attract students across the Ohio, Kentucky, and Indiana region, making a great opportunity to show off what makes your company special. If you are interested in getting involved, We offer various sponsorship levels, each with its own set of perks. You can choose the level that aligns best with your company's goals and budget.

General Partnership

If you are interested in partnering not just with this great event, but with our organization as a whole, we are looking to develop wholistic partnerships as well! Your financial support will allow us to invest in technologies for our general body and for us to host campus events and remote CTF games. These investments attract the brightest and most motivated student our university has to offer. In return, we can provide many great ways for your organization to connect with our students, and the students of the University of Cincinnati for a full year!
