UC.yber; Meeting #2

Last Weeks Meeting We...

- Talked about our purpose and goals
- Explained OWASP
- Displayed our current leadership and filled open leadership roles
- Covered how to get involved
- Brainstormed fundraising ideas and future purchases

Let's Recap

- Stay updated with our Facebook and Twitter @UCyb3r
- **Get on our Slack**! Ucyber.slack.com
- **OWASP**, Open Web Application Security Project - Look it up!
- Bake Sale! Sponsorship opportunities, collaborate with hackathon
- Welcomed Colton, Sahithya, and Alexander onto the content committee
- Introduced our leadership

Current Leadership

Committee Responsibilities

Social Media: Update media pages, network online and in person, brainstorm new ways of connecting with people/organizations, post daily articles

Content: Help create these weekly powerpoints to cover cybersecurity content, send social media team interesting articles to post

Event: Setup/collaborate possible chapter events (hackathon, CTF, etc.)

Fundraising: Generate funds by reaching out for sponsorships, setting up bake sales, anything to bring the chapter money

Goals

- Grow
- **FUNDRAISE**
- Start working toward certificates
- Obtain a lab space
- Visit Siemens Cyber Defense HQ
- Find a speaker to come in and talk to us
- Collaborate with Cincinnati OWASP

Bake Sale Plans

- Discussed last week
- We need a Chapter Bank Account
- A Chapter Venmo/Square
- A location and time
- A location, time, and list of those willing to help bake
- People willing to work the table

Enigma Machine

WW2 German encryption machine thought to be unbreakable

If broke you could read secret german messages, save lives

158,962,555,217,826,360,000 combinations for setting the machine

FLAW- a letter would never be encoded as itself

Bombe machine was created by Turing

Next Week

Possible Kali Linux Project

Play with Wireshark

Have good Progress towards bake sale

Progress to a Siemens tour
